EDITORIAL

From The Editor's Desk

M.O.P. Vaishnav's recent recognition by NAAC as an A++ grade institution in our fourth cycle of accreditation has had several pleasant consequences. We continue to build on our institutional credentials – both academic and non-academic. Besides, the citation has also given us the impetus to accelerate our efforts in community development.

'Vikas' was a project we launched and executed in 2022-23, in line with the Sustainable Development Goals of the United Nations. Tomorrow's corporate citizens, policy-makers and members of civil society are shaped today in the crucible of academic institutions. This is why we consider our role essential in the success of the SDGs.

Vikas comes as the latest in a series of annual social responsibility projects we have undertaken. In the established fashion, all departments and programmes in the College carried forward the unified mission in their own manner for the benefit of different cohorts.

As a long-term commitment to the pursuit of the SDGs, the College also launched a Sustainable Development Club – in association with the non-profit organisation Bharat SokaGakkai – which will lead similar activities every year. Fittingly, the Club was inaugurated by Dr. S. Venkataraman, Senior Consultant, Education Sector, UNESCO Headquarters, Paris. He explained the SDGs to an audience of about 160 students, who will no doubt act as SDG ambassadors in the years to come.

The College also launched an SDG app, with former Tamil Nadu Chief Secretary Dr. Girija Vaidyanathan presiding. This will help further understanding about the SDGs amidst young digital denizens.

Among other achievements, our student R. Vaishali did us and the country proud when she won individual and team medals at the 44th Chess Olympiad held in July – August 2022. The College held a felicitation for the champion and her brother R. Praggnanandhaa, who also was a medallist at the Olympiad.

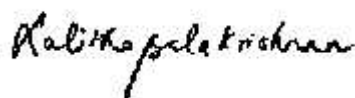

M.O.P. was also proud to present cash awards to felicitate College sportswomen who emerged victorious at the Khelo India University Games.

Besides sports, M.O.P. has a tradition of championing entrepreneurship through our initiative 'Swabhimaan'. In 2022-23, our 30th year since inception, we honoured 30 alumna entrepreneurs under 30 years of age. It was heartening to note the number of nominations, and how tough the selection process was for the jury. This speaks to the numbers of job-creators that M.O.P. has nurtured over the years.

The Department of Communication and Media Studies, which marked 25 years since inception, organised an international media seminar, featuring top media professionals and academics from India and abroad, representing various sectors of the media industry and participation by media academics, students and professionals.

Our placements continue to be strong, with the top offer coming from Ernst and Young, at an annual package of Rs. 12 lac. We thank our industry partners who visit M.O.P. year after year for placements, believing in our method, which is validated by our students who go on to prove their mettle in the corporate world.

I firmly believe that with our committed faculty members showing the way, our diligent student ambassadors will keep M.O.P. shining in the coming years too.

Developing Self-reliant Individuals

M.O.P. Swabhimaan – Entrepreneurship Development

The College seeks to inculcate in students more than academic proficiency – it seeks to nurture self-reliance and social responsibility, hallmarks of true empowerment. This ideal remains the lodestar that the College continues to work towards, most notably with the entrepreneurship development programme, M.O.P. Swabhimaan. The thrust on entrepreneurship is a natural outcome of the *Panchsheel or 5-I principle* that guides all student programmes at M.O.P. Vaishnav. The process can best be described through the following five actions:

- Impact – Pedagogy (through faculty, guest lectures and other academic and non-academic exposure) creates an impact on the student.
- Imagine – This kindles the student’s imagination and she develops a problem-solving mindset.
- Ideate – Her creativity is stimulated, and, often through brainstorming with faculty guides and peers, ideas are generated.
- Imbibe – Lessons from practitioners and gurus are imbibed, and the student is motivated to strike her own path.
- Inspire – In turn, she inspires her peers and others to similarly craft their destiny.

M.O.P. Incubation Centre

The Incubation Centre, launched in 2019, trains students in idea generation and business plan preparation. The Centre handholds budding student and alumna entrepreneurs with one-to-one mentoring as they begin their entrepreneurship journey. Cares, through which students ran revenue generation skills workshops for underprivileged women. The Bazaar recorded a footfall of 9,000 with a turnover of Rs. 20.97 lakh.

Akriti successfully runs Impressionz, a campus stationery stall, and operates a stall at the M.O.P. Bazaar, donating 5 percent of profits generated every year towards community service projects. Akriti executives also conduct workshops for budding entrepreneurs, helping nurture the entrepreneurial ecosystem.

B.Sc. Computer Science – VIKAS 2022-2023

Community service is one of the best ways to give back to our community. It brings benefits to our life and personal development. It teaches the significance to help the ones who are in need, define our values, experience empathy, develop social skills. This year the service was at The Map Learning Centre. It is a special education centre located in West Mambalam, Chennai. Place for mentally challenged children who need some help or assistance in learning. The students of **III B.Sc. Computer Science** had the wonderful opportunity to teach them. It was a three weeks of service from 13 February, 2023 to 7 March, 2023. It taught a plethora of things and at the same time had fun activities as well.

Some of these activities were:

- Reading and preparing their assignments.
- Confidence building in students
- Singing
- Playing the piano
- Dancing with students
- Simple painting
- Decorating diyas (oil lamps)
- Participating in yoga classes

Not only did the children there enjoy and learn from M.O.P. Student, our student also learnt from them. All of them had amazing knowledge and talents. It was a different experience to know how students differently learn and take notes. Learning weaving from those students was a wonderful experience.
