SOFTWARE ENGINEERING(THEORY) WITH UML UNIFIED MODELING LANGUAGE - PRACTICAL	21UCSC307 & 21UCSC307P		✓	✓	✓	Software engineering principles help to bring team work, planning, costing,testing and build quality projects.
PROGRAMMING IN PYTHON (THEORY & PRACTICAL)	18UCSC306 &18UCSC306P				✓	Students can write their own code for data analytics to help business to take decisions.
BUSINESS INTELLIGENCE DATA ANALYTICS USING OPENSOURCE TOOL	17UCSC303 & 17UCSC303P				✓	Data Visualizations help organization to take decisions.
ARTIFICIAL INTELLIGENCE	18UCSC308		✓	✓	✓	Machine intelligence helps human to solve complex computational needs.
XML AND ITS APPLICATIONS (THEORY & PRACTICAL)	14UCSC340 & 14UCSC340P				✓	Students learn to build robust XMLprograms. The programming skills help them to learn timely submission, originality and creativity in their work. E-commerce assignments make them technologically aware of different Electronic Payment Systemsand make them socially responsible by creating anawareness in ecommerce threats.
ADVANCED JAVAPROGRAMMING (THEORY & PRACTICAL)	16UCSC307 & 16UCSC307P		✓	✓	✓	Students developreal-timeprojects using Ajax and HTTP Server which helps them to write reusable code.
COURSES COMMON TO B.Sc COMPUTER SCIENCE ,B.C.A.						
PROGRAMMING IN C (THEORY AND PRACTICAL)	18UCSC303 & 18UCSC303P		✓		✓	Original software code is written to maintain sustainability In the code
STATISTICS USING R	18UMAT303		✓			Statistical analysis is essential to the field of environmental sciences, allowing researchers to gain an understanding of environmental issues through researching and developing potential solutions to the issues they study.
DATABASE MANAGEMENT SYSTEMS (THEORY AND PRACTICAL)	14UCSC312 &14UCSC312P				✓	The Course focusses on issues pertaining to protection of database and privacy of the users.
HYPERTEXT PREPROCESSOR AND MYSQL	15UCSC303	✓	✓	✓	✓	Dynamic and interactive web pages are built using PHP and MySQL following coding standard and professional ethics.
SOFTWARE TESTING	15UCSC306				✓	Each tester writes a code with integrity that fits it's specific circumstances and concerns.
DATA COMMUNICATION AND COMPUTER NETWORKS	17UCSC304		✓			Environment friendly networks help to build latest communication technologies for the betterment of the society.
OPERATING SYSTEMS WITH UNIX (THEORY & PRACTICAL)	14UCSC320 &14UCSC320P	✓	✓	✓	✓	Operating Systems are designed and controlled using languages considering social and environmental concern.
WEB TECHNOLOGY (THEORY & PRACTICAL)	16UCSC305 & 16UCSC3052P		✓			Web Technology has sustainability as websites and applications developed using this technology will last long even 10-20 years after the creation.

CLOUD COMPUTING	14UCSC325		✓		✓	Environmental friendly cloud servers help to digitize the organisation data.
RESOURCE MANAGEMENT TECHNIQUES	14UMAT329			✓		Optimal use of resources for software development. Scheduling planning and controlling the project completion tenure.
<b>B.Sc DATA SCIENCE</b>						
OPERATING SYSTEMS AND SHELL PROGRAMMING(THEORY & PRACTICAL)	21UCSC305 & 21UCSC305P		✓		✓	Student study the basics of operating system. Students develop efficient algorithms for scheduling CPU. The applications are built using ethical, environmental friendly.
OPTIMIZATION TECHNIQUES	21UMAT306		✓	✓	✓	Study on optimization techniques course helps students to provide solutions in cloud resource allocation applications, network analysis and game theory problems.
MARKETING ANALYTICS (THEORY & PRACTICAL)	21UCSC306 & 21UCSC306P	✓	✓	✓	✓	Course focus on business analytics concepts from the perspective of customer helps student understand nuances of digital marketing and social media marketing. This results in developing products suitable for gender, environment friendly and human value.
ARTIFICIAL INTELLIGENCE AND EXPERT SYSTEMS (THEORY & PRACTICAL)	21UCSC308 & 21UCSC308P	✓	✓	✓	✓	The knowledge representation and problem-solving methods help students develop AI applications considering environmental challenges, more energy efficient apps, reduce human error and focus on gender equity.
TIME SERIES ANALYSIS AND FORECASTING (THEORY & PRACTICAL)	21UCSC309 & 21UCSC309P		✓	✓	✓	Students build models and do forecasting analysis with time series. They make observations and drive future strategic decision-making on datasets from various sectors.
NME I - FUNDAMENTALS OF DATA SCIENCE – I	22UNME403A		✓	✓	✓	Course focus on data mining methodologies, data warehousing role and analytics techniques. This improves the analytical skills of students and help them to apply in their domain.
NME - II - FUNDAMENTALS OF DATA SCIENCE – II	22UNME403B		✓	✓	✓	Students learn the nuances of Data Science and model building process using machine learning algorithms and visualizations.
PYTHON FOR ANALYTICS - IDE	21UELE302E		✓	✓	✓	Python is an open-source language to perform data analytics. Students from various disciplines able to do analytics visually to solve real-life problems in their domains and apply data science concepts for sustainable development.
BASICS OF DATA SCIENCE (THEORY) AND PYTHON (PRACTICAL)	21UCSC301 & 21UCSC301P	✓	✓	✓	✓	Students present inferences of datasets using python programming language. They use data analytics ethically and responsibly, set privacy policies on users' data.
DATABASE MANAGEMENT SYSTEMS (THEORY) AND MYSQL (PRACTICAL)	21UCSC302 & 21UCSC302P		✓		✓	Students learn about storing and accessing data. Course focuses on using architectures that stores data environmentally friendly. Data ethics encompasses the moral obligations of gathering, protecting, and using personally identifiable information.
PROBABILITY AND STATISTICS	21UMAT301		✓	✓	✓	Statistics discipline concerns on the collection, organization, analysis, interpretation, and presentation of data. sound statistical methods, new technologies and strengthened statistical systems enable better decisions.
OBJECT ORIENTED PROGRAMMING WITH JAVA (THEORY & PRACTICAL)	21UCSC303 & 21UCSC303P	✓	✓	✓	✓	Students develop environmental, sustainable applications considering human values such as inclusion, privacy and accessibility during software development following the code of ethics.

No. 20, IV Lane, Nungambakkam High Road  
Chennai-600 034

DATA STRUCTURES AND ANALYSIS OF ALGORITHMS (THEORY & PRACTICAL)	21UCSC304 & 21UCSC304P		✓		✓	Students learn the art of storing and analysing the data through structured and unstructured representations. Algorithms are developed considering ethical factors for any real-world problems focusing on limiting the space and time complexity issues.
MATHEMATICS FOR DATA SCIENCE (THEORY & PRACTICAL)	21UMAT304 & 21UMAT304P		✓		✓	Linear Algebra and calculus framework help students to develop critical thinking and problem-solving skills. These mathematical methods are used to solve some real-life problems in relation to SDGs.
<b>B.Sc MATHEMATICS</b>						
ALGEBRA AND TRIGONOMETRY	18UMAT301		✓			Hyperbolic functions are used to describe the path of a spacecraft performing a gravitational slingshot maneuver.
DIFFERENTIAL CALCULUS	18UMAT302		✓			Biologists use differential calculus to determine the exact rate of growth in a bacterial culture when different variables such as temperature and food source are changed.
C PROGRAMMING (THEORY & PRACTICAL)	18UCSC301 & 18UCSC301P		✓			C programming has applications in MATLAB, Mathematical and in the development of variety of graphics and gaming applications.
INTEGRAL CALCULUS	21UMAT303		✓			Gamma function is used in gamma distribution which helps in determining the life span of electronic components.
DIFFERENTIAL EQUATIONS AND APPLICATIONS	15UMAT302		✓			Ordinary differential equations are applied in Rocket launch trajectory analysis, Seismic wave propagation in the earth.
COMPUTER ORIENTED NUMERICAL METHODS (THEORY & PRACTICAL)	18UMAT307 & 18UMAT307P		✓			Computer Oriented Numerical methods play a vital role in solving issues pertaining to environmental protection and safety engineering analysis.
VECTOR ANALYSIS AND CO-ORDINATE GEOMETRY OF 3 DIMENSIONS	14UMAT315		✓			Concepts of the course-Line integral helps to calculate the work done by a force on a moving object in a vector field.
MATHEMATICAL STATISTICS (THEORY & PRACTICAL)	17UMAT303 & 17UMAT303P		✓			Weather forecast models are built using the concepts of statistics.
FINANCIAL MATHEMATICS	17UMAT302		✓			Amortization is important for managing intangible items and loan principals.
MECHANICS	16UMAT302		✓			Mechanics helps to reduce environmental impacts by recycling power and material waste as well as developing technologies to make use of low-carbon forms of energy.
REAL ANALYSIS	16UMAT304		✓			Cauchy sequences taught in the course are used in fields like satellite design, manufacturing, construction and treatment plants.
NUMBER THEORY AND CRYPTOGRAPHY	18UMAT310		✓			Cryptography facilitates the provision of a secure service: cash withdrawal from an ATM, Paytm, email, web browsing and use of a GSM mobile phone.
DISCRETE MATHEMATICS	15UMAT306		✓			Boolean algebra has been used to come up with an analysis of flight accidents. The logical tools make it possible to determine the causes of failures i.e human factors, environmental factors, and equipment failures.
GRAPH THEORY	14UMAT326		✓			Graph theory is used to find the shortest path in road or network.

INTEGRAL TRANSFORMS AND APPLICATIONS	16UMAT307		✓			Fourier Transform is an important image processing tool to do image analysis, image filtering, image reconstruction and image compression.
OPTIMISATION TECHNIQUES	16UMAT308		✓			CPM is commonly used with all forms of projects, including construction, aerospace and defence, software development, research projects, product development, engineering, and plant maintenance.
MATHEMATICAL MODELLING	16UMAT306		✓			Mathematical models are used to solve many real life situations - launching a satellite, predicting the arrival of the monsoon, controlling pollution due to vehicles, reducing traffic jams in big cities.
MODERN ALGEBRA	19UMAT303		✓			Group theory is used in atomic and molecular spectroscopy to find out the selection rules of spectroscopic transitions.
LINEAR ALGEBRA	19UMAT304		✓			Vector space plays a major role in meteorological department in forecasting the motion of hurricanes and describing wind conditions.
<b>B.Sc FOOD SCIENCE MANAGEMENT</b>						
BASICS OF FOOD PREPARATION	14UFSC301		✓	✓	✓	Basic knowledge of methods of food preparation, considering individual likes, ensures healthy living.
PHYSICAL SCIENCES OF FOOD	16UFSC301		✓	✓	✓	The course highlights the physical and chemical interactions in foods and the ensuing changes in food that forms the basis for processing, quality evaluation or commercial production.
FOOD SCIENCE – I	16UFSC304		✓	✓	✓	This course focuses on identification and categorization of the food groups, their nutritional importance and processing techniques plays a pivotal role in food and health industry.
EXPERIMENTAL FOODS	16UFSC302		✓	✓		Perform experiments in accordance with food processing parameters and sustainability standards.
FOOD CHEMISTRY	16UFSC303		✓			The constituents of food and their interaction, properties and changes during processing has a direct implication in the functioning of food processing sector.
FOOD MICROBIOLOGY	14UFSC306		✓	✓	✓	Integrity in microbiological analysis and environmental safety is essential to ensure food quality and safety.
FOOD MERCHANDISING	14UFSC309			✓	✓	Course focuses on ethics should be followed while managing business initiatives so as to supply quality products to the consumers.
BIOCHEMISTRY OF FOOD PROCESSING	14UFSC305		✓			The course addresses on scientific principles that should be followed in food production to ensure safe processed foods for consumption.
INTRODUCTORY NUTRITION	14UFSC307		✓			Basic nutrition concepts are reinforced to explain the importance of balanced nutrition and healthy diets.
BAKING SCIENCES AND TECHNIQUES	15UFSC301		✓		✓	Sound knowledge of baking techniques and professional ethics are essential for starting an entrepreneurial initiative in baking.

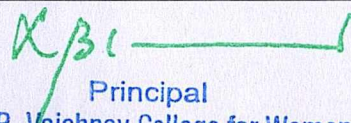

MARKETING RESEARCH AND CONSUMER BEHAVIOUR	15UMAN308		✓		✓	Understanding market trends and consumer behavior towards products helps in developing better products in alignment with the principles of sustainability and professional ethics.
FOOD SANITATION AND QUALITY CONTROL	14UFSC310		✓	✓	✓	Following appropriate sanitation techniques provides safety to individuals and environment. Quality control integrated with ethical values is essential for maintaining the safety standards.
FOOD ANALYSIS	14UFSC308		✓	✓	✓	Implementation of correct analytical techniques in food analyses ensure the availability of quality and safe foods for global consumption.
NUTRITIONAL BIOCHEMISTRY	14UFSC311		✓			Principles underlying biochemical process in the human body have global implications in health and wellness sector.
NUTRITION THROUGH LIFE CYCLE	15UELE302C		✓			Understanding nutritional requirements for all age groups and their association with menu development ensures a healthy life.
DIET AND PHYSICAL FITNESS	11UELE302E		✓			Planning a good meal plan and diet chart according to physical activity contribute to building a healthy society.
THERAPEUTIC NUTRITION	19UFSC308		✓	✓	✓	Planning a good meal and diet chart according to disease conditions contributes to cure and safety of individuals
NUTRITION AND MENU DEVELOPMENT	19UFSC309		✓	✓	✓	Execution of nutritious diet charts according to disease conditions plays a key role in helping improving the health of society
FOOD PACKAGING	14UFSC313		✓	✓	✓	Safe food packaging practices conforming to ethical and environmental standards is essential for sustainable food products.
FOOD DESIGN	14UFSC312		✓		✓	Innovative product development focusing on meeting consumer satisfaction and emerging trends will ensure availability of healthy food products.
PRINCIPLES OF FOOD PROCESSING AND PRESERVATION (THEORY & PRACTICAL)	19UFSC311 & 19UFSC311P		✓	✓	✓	Scientific principles should be followed in food processing as per the trading standards to ensure safe processed foods for consumption
POST-HARVEST TECHNOLOGY	14UFSC317		✓		✓	Proper, efficient handling of foods after harvest in accordance to desired governmental standards ensures sustainable food supply and reduced food loss that contributes to sustainable production.
FOOD SUPPLY CHAIN MANAGEMENT	14UFSC316		✓	✓	✓	Professional integrity in the management of food supply chain will contribute to sustainable distribution of food products.

DIET COUNSELLING	19UFSC310	✓	✓	✓	✓	Counselling of clients based on gender, activity and health condition assures improved lifestyle among individuals
FOOD ENTREPRENEURSHIP	15UFSC303		✓	✓	✓	Concepts help in applying legal standards and financial management techniques in setting up food start-ups thus helping in upgrading the food sector.
<b>B.Sc PSYCHOLOGY</b>						
STATISTICAL METHODS	18UMAT308				✓	Computing descriptive and inferential statistics caters to the professional demands and necessitates the principles of ethics
INTRODUCTION TO CYBER PSYCHOLOGY	19UPSY305				✓	The significance of human-computer interaction caters to the right behaviour in virtual platform that cautions cybercrimes, online gambling and other behavioural issues towards digital technology
EXPERIMENTAL PSYCHOLOGY - PRACTICAL	18UPSY303				✓	Maneuvering experiments in relevance to sensation, perception, intelligence, attention and memory builds strong professional expertise contributing to ethical requirements.
PSYCHOLOGICAL TESTING - PRACTICAL	18UPSY304				✓	Administration of psychological tests highlights the professional role of a Psychologist and contributing to ethical demands.
HUMAN RESOURCE MANAGEMENT	18UMAN305				✓	Employee relations, employee rights and implementing global HR system caters to professional ethics
PSYCHOLOGY OF INTERPERSONAL RELATIONS	18UELE302A	✓		✓		Gender equality, work ethics, communication skills, relationship building strengthens the human values
SOCIAL PSYCHOLOGY I	17UPSY303			✓		Studies on the relationship between attitudes and behaviour enriches human values.
POSITIVE PSYCHOLOGY	17UPSY304			✓		Positive Psychology meets the essentials to lead a happy life by inculcating spiritual well-being and mental well-being.
COUNSELLING PSYCHOLOGY	17UPSY305	✓		✓	✓	Gender counseling and other counseling processes addressed towards career, school and special population necessitates the role of a counselor along with ethical procedures.
HEALTH PSYCHOLOGY	17UPSY302				✓	The role of a health psychologist, the strategies to prevent illnesses and promote well-being requires adaptation of professional ethics.
SOCIAL PSYCHOLOGY II	17UPSY308	✓	✓	✓		Promoting gender equality, enriching global standard of climatic conditions and spreading peace strategies across communities and countries integrates the issues like gender, environment and sustainability and human values.
ORGANIZATIONAL PSYCHOLOGY	17UPSY309			✓		Topics such as organizational culture, organizational structure aims to enrich human values in an organization.
PROJECT – SURVEY	16UPSY321	✓	✓	✓		Projects on gender, environment and sustainability as well as human values are encouraged.

B.A SOCIOLOGY						
SOCIAL PATHOLOGY	14USOC306	✓		✓		Students are sensitised on gender issues like Violence against women, Infanticide, female feticide, Dowry, Rape, Sexual harassment and Eve teasing. Legal protection and welfare measure for women and children are also part of the syllabus.
SOCIAL DEMOGRAPHY	15USOC305	✓				The course relates gender equality in the fields of fertility, mortality and migration with topics like the factors affecting fertility and the millennium development goals
ENVIRONMENT AND SOCIETY	15USOC308		✓			The course is designed to create awareness about the interface between environment and society. Society which values to safeguard the perils of environmental degradation, will reflect in the overall organisational ethics.
SOCIAL MOVEMENTS IN INDIA	14USOC314	✓	✓			Social movements can be powerful catalyst in protecting and expanding human rights, including gender equality through movements like the social reform movements and environment.
PROJECT	16UMIP301				✓	Course is envisaged to create a platform to develop research skills like objectivity, ethical neutrality and to find out solutions for relevant social problems at the local level
SOCIAL LEGISLATIONS IN INDIA	20USOC301	✓		✓		The course briefs the students on legislations, policies related to women, children, senior citizens and other socio-biological-economic parameters like health, poverty, unemployment, etc
SOCIOLOGY OF INDIAN SOCIETY	21USOC301	✓		✓		The students are briefed on marriage practices in India, laws on Hindu, Muslim and Christian marriages, Divorce and on Dowry practices which is gender sensitive. The syllabus is also related to the roots of Hindu social organization and topics such as Doctrine of Karma, Purusharthas, Ashrama Dharma.
COURSES COMMON TO B.BA, B.A SOCIOLOGY, B.Sc PSYCHOLOGY, B.COM HONOURS						
RESEARCH METHODS	17UMAN307				✓	Professional ethics are followed while carrying out a research.
B. Sc VISUAL COMMUNICATION						
ADVERTISING STRATEGY - I	19UNME402A				✓	Ethical issues in Advertising aids students in identifying the ethical concerns in Advertising.
ADVERTISING	15UMED307	✓		✓	✓	Topics like Impact of Ads on women and children and ethical issues in advertising globally and nationally aids students to act as socially responsible and ethical advertising professionals.
DIGITAL GRAPHIC DESIGN	16UMED305	✓	✓	✓	✓	The course includes designing creatives and to generate innovative design solutions to address environment, gender, health etc with ethical considerations.
ADVANCED PHOTOGRAPHY	15UMED314	✓	✓	✓	✓	Due consideration to gender, environment, human values, professional ethics are inherent in the Course. Portfolio categories and Photography exhibitions are liberally based on these themes.

SCRIPT WRITING	15UMED317	✓	✓	✓	✓	Script writing exercises for Fictional and Non-Fictional programme, in different genres and for different mediums, nurtures a thinking perspective. Understanding the Roles and Responsibilities of Scriptwriter enables professional work culture. Writing for different media audiences facilitates addressing issues and topics of national and international concerns.
2D ANIMATION AND WEB DESIGNING	16UMED306			✓	✓	Course includes designing for commercial and non-Commercial Organizations and encourages students to work responsibly in relation to human values.
PRODUCTION TECHNIQUES	15UMED324	✓	✓	✓	✓	Writing and producing PSAs, Short films and Documentaries with a global thought process, addressing social themes and issues pertinent to gender and environment awareness. Working in teams facilitates practicing ethical values in delivering the media content in the right light.
FILM STUDIES	15UMED325				✓	Critically reviewing and analysing different films in Narratives and Parallel cinema, presenting the right understanding of content showcases professional ethics and values.
3D MODELLING AND ANIMATION	15UMED328				✓	Course instills original thinking and creative abilities in Creating logos, commercials, models and animations with ethical considerations.
MEDIA, CULTURE AND SOCIETY	15UMED326	✓		✓		Media and Realism: Issues related to Class, Gender, Race and Age are widely addressed.
ADVERTISING STRATEGY AND CAMPAIGN	15UMED323			✓	✓	The course addresses values such as depiction of positive role models, and avoidance of cliché and race- and gender-based stereotypes in the creation of advertising communication to sell products and services. Ethical standards such as fairness and honesty in communication are emphasized at all stages.
VISUAL SOCIOLOGY	15UMED330	✓	✓	✓	✓	Plan and implement plagiarism-free Research Project & original ideation in Visual Production. Dimensions of Social Life - Aspects, Issues or Problems pertaining to Society, Culture and Women are documented with highest regard to gender, human values, environment and professional ethics.
MEDIA LAWS	16UMED307	✓		✓	✓	Fundamental Rights & Fundamental Duties. Media related IPC sections. Intellectual Property Rights Ethical principles in Photography and Videography. Right to Privacy. Film Censorship. Advertising and Social Responsibility. Ethics in Advertising. New Media - IT Act (2000) and its amendments. Plagiarism. Analysis of these legal regulations help in creating ethical and professional media products.
SPECIALISATION - VIDEO PRODUCTION	15UMED331	✓	✓	✓	✓	The course instills Writing and producing PSAs, Short films and Documentaries with primary consideration to human values and ethics. Working in teams, utilizing production equipment and software, practicing ethical values in delivering the media content are inherent in the course.
SPECIALISATION - ADVERTISING PHOTOGRAPHY	15UMED332	✓	✓	✓	✓	The course includes series of conceptual photography assignments capturing life and lifestyles with due consideration to human values and ethical practices. Focus areas include people and environment.
SPECIALISATION - WEB DESIGNING	15UMED333				✓	The course aims at Creating a dynamic, fully functional website using industry standard software in a professional and ethical manner.

SPECIALISATION - MULTIMEDIA	15UMED334				✓	The course aims at instilling original thinking in Creating logos, commercials, models and animations with ethical considerations.
HUMAN PSYCHOLOGY	14UMED320			✓		Course addresses Social Cognition–Understanding others, Attribution Process – Producing and shaping media messages based on the understanding of behaviour and attitude of people.
INTRODUCTION TO VISUAL COMMUNICATION	21UMED301	✓	✓	✓	✓	The Course nurtures the tools of visual communication to enable strategic communication across a range of media, to a diverse audience, nationally and internationally.
BASICS OF FINE ARTS	21UMED302		✓	✓		The course includes Visit to Art Exhibitions in the city to understand the regional and national trends and opportunities in the creative industry.
GRAPHIC DESIGN - I	21UMED303	✓	✓	✓	✓	The course curriculum includes designing of logos for national and international brands. Creating pattern designs for textiles that represent local and regional culture.
APPLICATION OF FINE ARTS	21UMED305	✓	✓	✓	✓	The Course curriculum includes Visit to Art Exhibitions hosted by International and National artists in city which helps the students to assess current industry trends locally, nationally, regionally, and globally.
GRAPHIC DESIGN -II	21UMED306	✓	✓	✓	✓	Course includes designing creatives representing Global, National, regional, and local culture, monuments and landscapes and aids students to identify the heterogeneity and inculcate designs across regions.
BASICS OF HUMAN COMMUNICATION	21UMED304	✓	✓	✓	✓	The areas of human communication are vividly addressed so as to equip self and produce meaningful and relevant messages to audience at all levels.
<b>B.Sc ELECTRONIC MEDIA</b>						
AUDIOGRAPHY	16UMED302				✓	Parameters of sound quality in cinema and television can be evaluated with the set standards.
SCRIPT WRITING FOR ELECTRONIC MEDIA	15UMED318	✓				Writing scripts for media programs with attention to gender inequalities addressing the social discrimination of women
MEDIA & AUDIENCE STUDIES	18UMED302			✓		The course propagates popular culture among the masses and hero worship ideology
AD PRODUCTION	15UMED319		✓			Creation of public service advertisements for a sustainable environment
MEDIA AESTHETICS	14UMED327			✓		The importance of artistic expression of life and beauty can be redefined.
ELEMENTS OF FILM STUDIES	16UMED308			✓		Expression of values that are important to human life and insisting on the adherence to them can be displayed through the aspects of the Mise-en-scene.

COURSE COMMON TO B.Sc ELECTRONIC MEDIA, B.Sc VISUAL COMMUNICATION						
PHOTOGRAPHY	15UMED309	✓	✓	✓	✓	Course instills due recognition to human values, ethics and gender concerns. Students are trained to Compose and produce Photographs with ethical considerations.
B.A. JOURNALISM						
BASICS OF JOURNALISM	15UMED301				✓	Ethics of the reporter and sub editor in the journalistic practice are highlighted in the course
REPORTING AND WRITING	15UMED304	✓	✓	✓	✓	In the course of reporting news developments, many such topics are encountered, and the ethical way of framing each important and sensitive issue is discussed.
HISTORY OF PRESS IN INDIA	14UMED304			✓	✓	The course is an inspiring narrative of the values of journalistic courage and ethics during freedom struggle
PUBLICATION DESIGN AND DTP	10UMED315	✓	✓	✓	✓	Each news development encountered presents the opportunity to discuss the right way to represent in words and visuals many such topics of importance.
PHOTO JOURNALISM	10UMED324	✓	✓	✓	✓	The art form can be used to effectively express their take on any gender, environment issues and values. The submissions help them learn the professional ethics in the field.
SOCIAL ISSUES IN INDIA	14UMED308	✓	✓	✓		The aim of the course is to sensitise students on various issues including gender, environment and sustainability. The students are trained to do objective reporting respecting human values while covering sensitive issues.
POLITICAL ISSUES IN INDIA	14UMED313	✓	✓	✓	✓	News stories and features relating to governance and environment, gender issues, development and sustainability are important news values and are covered based on their currency, while following ethical practices of reporting.
INTRODUCTION TO INDIAN CONSTITUTION	14UMED310			✓		This course offers a bird eye view of the Indian constitution and shapes students into well-informed citizens.
REPORTING FOR RADIO	15UMED313	✓	✓	✓	✓	Teams are encouraged to choose themes based on such development issues, and participate in discussions on other teams' projects. Thereby the course informs all students on ethical ways of covering such issues, specifically in the audio medium.
BUSINESS REPORTING	14UMED317		✓		✓	Students are introduced to financial reporting and the ethical nuances involved in reporting Indian economy
MEDIA RELATIONS	15UELE302E			✓	✓	Students are exposed to multidisciplinary ways to handle medial relations through ethical and effective media writing
MEDIA RESEARCH	15UMED321	✓	✓	✓	✓	The course is a research based study of media and gender, environment, development, journalistic values and ethics
CURRENT AFFAIRS I	14UMED324	✓	✓	✓	✓	Students are encouraged to discuss topics related to gender equality, issues on global development, environment. This helps in the process of making them into a holistic journalist keeping in mind the ethical structure / framework of a journalist.

KBC

PRINT JOURNAL	10UMED347	✓	✓	✓	✓	Students are encouraged to write stories on pressing global issues. In depth research and analysis done on issues like gender, environment and sustainability in order to write articles give them an overall perspective of the issues prevailing globally.
INTERNATIONAL RELATIONS	15UMED320		✓	✓	✓	Students get a clear idea on environment and sustainable development and sustainable development goals.
REPORTING FOR TELEVISION	15UMED322				✓	Students learn about the refugee crisis and ethical conflicts thus sensitizing them to these global problems.
MEDIA LAW AND ETHICS	14UMED312	✓		✓	✓	Students get exposed to laws pertaining to media and help them become professionals following ethical conduct
MEDIA AND SOCIETY	14UMED332	✓	✓	✓	✓	Media representation of all such issues of global developmental importance are identified and analysed, and students brainstorm on the best way forward.
SPECIALISATION- SPORTS REPORTING / DEVELOPMENT REPORTING / LIFE STYLE REPORTING	10UMED358/ 10UMED359/ 10UMED360	✓	✓	✓	✓	Students work on story ideas dealing with issues of gender, environment, development, and human values, within the context of ethical reporting practices.
CURRENT AFFAIRS II	10UMED330	✓	✓	✓	✓	Students are encouraged to come out and discuss topics related to gender equality, issues on global development, environment. This helps in the process of making them into a holistic journalist keeping in mind the ethical structure / framework of a journalist.
NEW MEDIA JOURNALISM	10UMED357				✓	Students are encouraged to write stories on pressing global issues. In depth research and analysis done on issues like gender, environment and sustainability in order to write articles give them an overall perspective of the issues prevailing globally.
ECONOMIC ISSUES IN INDIA	20UMED301	✓	✓	✓	✓	Students remain cognizant of gender issues owing to topics such as self-help groups; Topics such as sustainable agriculture and agriculture reform address environmental issues; Human values are a running thread through all the topics including poverty, population and unemployment; Professional ethics are addressed through topics such as stock market regulation.
<b>B. A. ECONOMICS</b>						
INTRODUCTORY MICROECONOMICS	20UECO301		✓			Topics like optimum scale, imperfect competition and economies of scale have relevance to resource conservation
INDIAN ECONOMY - I	20UECO302		✓			Topics like poverty, inequality, unemployment, agricultural labour, green revolution are relevant to sustainable and equitable growth of the Indian economy.
QUANTITATIVE TECHNIQUES FOR ECONOMICS I (THEORY & PRACTICAL)	20UECO303 & 20UECO303P		✓			Statistical analysis is essential to the field of environmental sciences, allowing researchers to gain an understanding of environmental issues.
INTERMEDIATE MICROECONOMICS	20UECO304		✓		✓	Topics like dumping highlight the need for equitable and sustainable relations between countries. Topics like Welfare economics, Exploitation of Labour under different market situations are relevant to sustainable and equitable world economy.

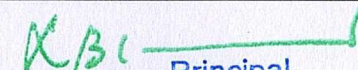

KBC  
Principal

INDIAN ECONOMY II	20UECO306		✓			Topics like social security measures, wage gap are relevant to gender, sustainable and equitable growth of the Indian economy.
QUANTITATIVE TECHNIQUES FOR ECONOMICS II (THEORY & PRACTICAL)	20UECO305& 20UECO305P		✓		✓	Agricultural research institutes use Linear programming techniques for crop rotation mix of cash crops, food crops and fertilizer mix
INTRODUCTORY MACROECONOMICS	19UECO304		✓			Concept of Green GDP underlines the importance of including environmental variables in National Income measurement.
PRINCIPLES OF FINANCE	19UECO305				✓	Students get to learn that Code of Ethics & Standards of professional conduct outline best practices around professionalism and integrity and code of ethics maintains that investment professionals must place the integrity of the profession & the interest of clients above their own and act with competence & respect in capital markets
SOCIO ECONOMIC POLICY	19UECO306	✓	✓	✓	✓	Units on Health, Education and Microfinance Policies relate to Gender, Sustainability and Human Values exposing students to the importance of inclusion at all levels (including gender and socio-economic) for sustainable growth and social justice.
INTERMEDIATE MACROECONOMICS	19UECO308		✓			Topic: Economic stabilisation and macroeconomic policy highlights the measures to bring about a sustainable and robust economy.
DEMOGRAPHY	19UECO307			✓		Topics like sex ratios, Reproductive and Child health in India focus on women issues.
FISCAL ECONOMICS - I	19UECO309		✓			Concepts like Principle of Maximum Social Advantage and Canons of Taxation are related to sustainable and equitable taxation.
MONETARY ECONOMICS	19UECO311		✓			Topics like Role of NABARD, SIDBI in Agricultural and Industrial Development relate to financing development especially agriculture / MSMEs to bring about a sustainable economy.
INTERNATIONAL ECONOMICS	19UECO310		✓		✓	Topic on WTO exposes students to agreements and negotiations which try to bring about sustainable and equitable distribution of income from trade and fair and ethical trade practices.
HISTORY OF ECONOMIC THOUGHT	19UECO317			✓		Marxian Thought seeks to promote the value of social justice.
RESEARCH METHODS (THEORY & PRACTICAL)	17UMAN307/ 17UMAN307P				✓	Professional ethics are followed while carrying out a research.
ENVIRONMENTAL ECONOMICS AND SUSTAINABLE DEVELOPMENT	19UECO312	✓	✓	✓	✓	Sustainable Development Goals such as poverty, inequality, human development, energy and resource conservation, etc address issues relevant to gender, human values, environment and ethics.
FISCAL ECONOMICS II	19UECO316		✓		✓	Public debt and fiscal policy are relevant to sustainable growth. Concept of deficit financing relates to ethical practices.
DEVELOPMENT ECONOMICS	19UECO314	✓	✓	✓	✓	Core values of development are relevant to human values. Development finance debates ethical practices of foreign aid Inclusive development approach addresses gender issues too Development policy making deals with sustainable growth.
PROJECT	19UMIP301				✓	Course is envisaged to create a platform to develop research skills like objectivity, ethical neutrality and to find out solutions for relevant economic problems

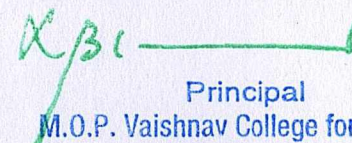

M.COM						
ADVANCED FINANCIAL ACCOUNTING	22PCOM301			✓	✓	The fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour is dealt with in detail in the introductory part of this course. Concepts related to rectification of errors instils in the students the sense of ethical representation of facts. Preparation of the accounts of a non-profit organisation gives them an insight on values attached to running a business with a social cause.
CORPORATE ACCOUNTING	22PCOM302			✓	✓	The adoption of Accounting Standards has enhanced comparability of financial statements of Indian companies in line with global standards, thereby leading to a more transparent and relevant disclosure. Students get to learn how by following these ethical standards can learn to harmonise the reporting of accounts and enhance comparability, and boost stakeholder confidence.
BUSINESS ETHICS AND CORPORATE SUSTAINABILITY	22PCOM303	✓	✓	✓	✓	This course will help students Create ethical Policies for organisations by including ethics as a part of business decision making at all levels of work and management.
ADVANCED FINANCIAL MANAGEMENT	21PCOM301		✓	✓	✓	In order to start up or even run a successful business, an excellent knowledge in financial management is imperative. The use of strategic planning, organising, directing, and controlling of financial undertakings in an organisation helps in maintaining adequate and suitable supply of funds, ensuring that investor psychology is taken cognizance of while making investment decisions, the optimum and efficient utilization of funds. These concepts are of great importance for the sustainable growth of a business for the overall ease of doing business and maintain the financial Health Index of a country.
CORPORATE AND INDUSTRIAL LAW	22PCOM304	✓		✓	✓	The concept of women directors brings about the idea of breaking the glass ceiling thus leading to gender equality. Concepts related to Investor education and protection fund, doctrine of indoor management, Secretarial standards, Insolvency and Bankruptcy code, Role of directors, Corporate governance, Money laundering, Shops and Establishment Act, Right to Information Act helps the students to understand how Ethics and laws are found in virtually all spheres of society.
ADVANCED CORPORATE ACCOUNTING	22PCOM306			✓	✓	This course deals with specialised accounting procedures for Companies. Aspects like Forensic accounting, financial crime and financial dispute resolution makes the students understand about Professional ethics of an accountant and about how a sound value system in key personnel in an organisation can avoid such situations.
QUANTITATIVE TECHNIQUES FOR BUSINESS DECISIONS WITH SOFTWARE APPLICATIONS (THEORY & PRACTICAL)	15PCOM309 & 15PCOM309P			✓	✓	Operations Research can be used as a tool for decision making to solve many societal problems. The various techniques help in endorsing the importance of OR in addressing the issues of making optimal use of limited resources in the best possible way.
LOGISTICS AND SUPPLY CHAIN MANAGEMENT	22PCOM308		✓	✓	✓	Logistics & Supply chain Management focuses on the way sustainability in supply chain can be achieved right from a warehouse's source of power to the transportation of goods and beyond by taking a holistic approach reducing waste and environmental footprint ensuring socially responsible business practices that support business growth.

Chennai-600 034

ACCOUNTING SOFTWARE	22PCOM305		✓	✓	✓	The knowledge on Accounting softwares and its inbuilt feature to maintain integrity, confidentiality and professional standards at all times. Learners should get acquainted and know the importance of the same
DIRECT TAX LAWS - I	21PCOM306			✓	✓	Direct taxes display the importance of taxes by reducing income equalities as citizens are taxed in proportion to their economic circumstances, thereby encouraging social and economic equality.
DIRECT TAX LAWS - II	21PCOM307			✓	✓	Income tax is a tax that governments impose on income generated by businesses and individuals within their jurisdiction. Tax revenue is the key for ensuring that countries have sufficient funds, paying a fair amount of tax in the countries where they operate is seen as an entity that is socially responsible. The course on Direct Tax Laws II provides for levy, administration, collection, recovery of Income Tax, Progressive rate schedule, exemption limits and students get to learn that Tax policies should be underpinned by the guiding ethical principles of accountability, transparency and consistency.
INDIRECT TAXATION	21PCOM310			✓	✓	GST, being an end-to-end IT-enabled tax system, is expected to bring buoyancy to government revenue. Students will get to learn that India will have a single tax rate in any part of the country while trade & industry will have a much lesser compliance burden and if taxes paid on inputs are more than output taxes, tax refund brings down the overall burden of taxes benefiting consumers as well. The attraction of taking input tax credit by purchasing goods from registered dealers, which will incentivise everyone to come into the tax net and there will be a reduction in refund frauds or input tax frauds because of invoice-wise matching of B2B transactions.
ADVANCED COST AND MANAGEMENT ACCOUNTING	21PCOM309			✓	✓	The course acquaints the students the role & importance of Cost & Management Accounting in optimum utilisation of existing resources, the way concepts have a bearing on managerial decision-making as non-compliance with professional ethical requirements can affect the quality of accounting information, ensuring the standards of ethical conduct, in compliance with competence, confidentiality, integrity, and credibility, information disclosure, processing, and internal control in accordance with organisation policy.
INVESTMENT ANALYSIS AND PORTFOLIO MANAGEMENT	15PMAN311			✓	✓	The course emphasises on how as Portfolio Managers they should have reasonable and adequate basis for investment decisions that are consistent with the stated objectives and constraints of that portfolio and provide adequate disclosures and information so investors can consider whether any proposed changes in the investment style or strategy meet their investment needs
FINANCIAL ANALYTICS	22PCOM307		✓	✓	✓	The main purpose Financial Analytics is to exhibit the results in a presentable manner is used in various areas like accounting, financial management, Investment analysis, Estimate the valuation of a business and to compare businesses to their peers in the industry, story telling by creating dash board, Where the basic ethics and values should be followed
TAX PLANNING AND MANAGEMENT	21PCOM311			✓	✓	Businesses are faced with a tax regime with greater complexities and challenges, nonetheless moving towards a globally cohesive tax world and as part of good governance, companies will seek to minimize their tax liability through tax planning and management. Indian tax legislative and judicial environment is constantly evolving, along with globalization, economic shifts, and operational adjustments. Tax planning as a focal part of financial planning ensures savings on taxes while simultaneously conforming to the legal obligations and requirements of the Income Tax Act.

COURSE COMMON TO M.COM., M.B.A, M.A. HUMAN RESOURCES MANAGEMENT, M.Sc. FOOD TECHNOLOGY AND MANAGEMENT, M.A. PUBLIC POLICY						
RESEARCH METHODOLOGY	14PMAN324			✓	✓	Students get to learn the need and importance of Ethics in research and how serious transgressions such as plagiarism and falsification of data, research procedures, or data analysis would not only cause a dent in their reputation and is against the norms of a good research. Students are encouraged to take up business research topics that have a social flavour and bring out workable solutions
COURSES COMMON TO M.COM. , M.B.A, M.A. HUMAN RESOURCE MANAGEMENT						
ORGANISATIONAL BEHAVIOUR	22PMAN304	✓		✓	✓	The course imparts value based practices for ethical decision making.
ENTREPRENEURSHIP AND FAMILY BUSINESS MANAGEMENT	17PMAN304		✓		✓	Incorporating sustainability practices and understanding the competencies of a successful entrepreneur
COURSES COMMON TO M.COM, M.B.A						
MERCHANT BANKING AND FINANCIAL SERVICES	10PMANF02			✓	✓	Merchant banking activities help in channelizing the financial surplus of the general public into productive investment avenues. They help to coordinate the activities of various intermediaries to the share issue such as the registrar, bankers, advertising agency, printers, underwriters, brokers, etc. and to ensure the compliance with rules and regulations governing the securities market. This being the era where mergers and acquisitions are popular, the scope of merchant banking has grown to a large extent.
INTERNATIONAL BUSINESS	12PMANF01		✓	✓	✓	Students get to know the influence of economic, political and Human Cultural Environment on Trade investment patterns, government influence on Trade investment, Cross-national co-operation & agreements, Global competitiveness, Globalization with social Responsibility, the way sustainability as a business approach create long-term value fostering company longevity and to ensure the company gains a reputation for ethical and responsible business practices in its home country and overseas
M.B.A.						
ACCOUNTS FOR BUSINESS DECISION MAKING	14PMAN301				✓	Code of ethics as prescribed in the accounting standards of Indian accounting and audit department is given emphasis in the course content.
LEGAL FRAMEWORK OF BUSINESS	19PMAN302			✓		The course focusses on remedies for breach of contract and consumer grievance redressal agencies
FINANCIAL MANAGEMENT	14PMAN312				✓	The course addresses the code of conduct prescribed by the regulatory authorities to avoid malpractices.
MARKETING MANAGEMENT	14PMAN315			✓	✓	In today's business environment, Sustainability as a business strategy is becoming increasingly appealing to managers, executives and business owners, and more businesses and organizations are driving change and success with sustainable business goals redesigning their working environments with focus towards developing female talent
QUANTITATIVE TECHNIQUES FOR MANAGEMENT	14PMAN318				✓	Quantitative techniques help in decision making process in the way that identify the factors which influence the decisions and quantify them.
STRATEGIC MANAGEMENT	14PMAN320		✓		✓	Developing environmentally sensitive strategies that upgrades the society and the ecosystem in which the company operates

PRODUCTION AND OPERATIONS MANAGEMENT	15PMAN308				✓	The course ensures that quality standards are not compromised in the backdrop of profit maximization, thus inculcating ethical values.
ADVERTISING AND SALES PROMOTION MANAGEMENT	10PMANM01		✓		✓	Promoting environmentally sustainable practices to gain competitive advantage and creating ethically acceptable advertisement campaigns.
RETAIL MARKETING	10PMANM03				✓	The course aims at following ethical practices with respect to product warranty, guaranty, price, usage, ingredients etc
INDUSTRIAL AND LABOUR RELATIONS	12PMANH01	✓		✓		The course aims at understanding the legal provisions available to protect the welfare of the workers.
BUSINESS ANALYTICS	22PMAN307	✓	✓	✓	✓	Course focus on business analytics concepts from the perspective of business helps student understand nuances of important of analytics business. .
MARKET RESEARCH AND CONSUMER BEHAVIOUR	12PMANM01			✓		The course focuses on understanding the underlying value shifts in order to comprehend the current and future consumer behavior. It also instils ethical practices to be adopted in marketing.
<b>COURSES COMMON TO M.B.A. , M.A. MEDIA MANAGEMENT</b>						
MANAGEMENT PRINCIPLES AND BUSINESS ETHICS	22PMAN303				✓	Demonstrating ethical leadership and apply creative mind in decision making leading to business success
HUMAN RESOURCE MANAGEMENT	14PMAN313	✓		✓		Framing of HR policies taking into consideration the impact for women at the workplace and addressing their special needs. Specify the value based framework as part of the topics.
<b>COURSES COMMON TO M.B.A., M.A. HUMAN RESOURCE MANAGEMENT</b>						
TRAINING AND DEVELOPMENT	10PMANH02	✓			✓	On-boarding, Diversity Training, Anti- Sexual harassment training and cross- cultural training are dealt with for gender sensitivity and professional ethics
HUMAN RESOURCES DEVELOPMENT	10PMANH03			✓	✓	Framing development practices aimed at enhancement of professionalism in the workplace
<b>M.A. HUMAN RESOURCE MANAGEMENT</b>						
HRM FOR ORGANISATIONS	22PMAN301				✓	Accounting standards ,ethical reporting and managerial decision making are addressed in the course
MANAGERIAL CONCEPTS AND BUSINESS ETHICS	15PMAN302		✓		✓	Ethical leadership, Ethical decision making and Corporate Social Responsibility – Triple Bottom line are discussed for sustainable and ethical functioning of business
WORK PSYCHOLOGY	17PPSY301			✓	✓	Appreciating workforce diversity, ensuring organizational justice and working relationships thereby inculcating human values and ethical conduct
COMPENSATION MANAGEMENT	15PMAN304	✓			✓	Ensuring Equity and fairness and Business Ethics in Compensation practices
PERFORMANCE MANAGEMENT SYSTEM	15PMAN307				✓	Fairness in appraising,reviewing and rewarding performance ethically

  
 Principal  
 M.O.P. Vaishnav College for Women  
 (Autonomous)  
 No. 20, IV Lane, Nungambakkam High Road  
 Chennai-600 034

TALENT MANAGEMENT	15PMAN309				✓	Ethical practices are followed in Workforce Analysis, integrating compensation with Employee Performance, Developing talent & Career management .
EMPLOYEE COUNSELLING	21PMAN304			✓		Dealing Specific work problems and employee grievance handling to ensure honoring of human values at workplace
OPERATIONS MANAGEMENT FOR HR MANAGERS	22PMAN309		✓		✓	Awareness on Environmental certification and ethical practices while managing operations
LEARNING AND DEVELOPMENT	22PMAN308	✓			✓	On-boarding, Diversity Training, Anti- Sexual harassment training and cross- cultural training are dealt with for gender sensitivity and professional ethics
INDUSTRIAL RELATIONS AND LABOUR WELFARE	17PMAN302			✓		Building Industrial harmony and sound labour relations practices enhancing human values
INTERNATIONAL HUMAN RESOURCE MANAGEMENT	15PMAN313			✓	✓	International Compensation, International Performance management & International T&D in Expatriation are topics discussed ensuring respect for human values and ethical consideration.
STRATEGIC HUMAN RESOURCE MANAGEMENT	21PMAN307			✓	✓	Interactive & Procedural Justice during organizational planning restructuring ensuring human value consideration and business ethics
CHANGE MANAGEMENT	21PMAN305			✓	✓	Informational and Interpersonal justice in dealing with resistance with change honoring human values and ethical behavior
LABOUR LEGISLATIONS -I	21PCOM304				✓	The Labor Laws are essentially meant for compliance and ethical professional conduct
LABOUR LEGISLATIONS-II	21PCOM312				✓	The Labor Laws are essentially meant for compliance and ethical professional conduct
<b>M.Sc INFORMATION TECHNOLOGY</b>						
USER INTERFACE TECHNOLOGIES	22PCSC305				✓	Accessibility, Responsiveness and User controls are major ethics of UI design.
ADVANCED PYTHON FOR MACHINE LEARNING AND DEEP LEARNING	21PCSC301		✓			Machine learning and Deep learning has made a significant impact on the society in its ability to use the tremendous amount of data generated to come out with critical and highly useful predictions and patterns.
FUNDAMENTALS OF INFORMATION TECHNOLOGY (THEORY & PRACTICAL)	14PCSC302 & 14PCSC302P		✓			Computers and information systems are used everywhere in society. New technologies are invaluable tools. The way an information technology tool affects sensitive issues has a direct impact on its effectiveness and usability
DATA STRUCTURE AND ALGORITHMS	14PCSC301				✓	An algorithm is a finite set of instructions or logic, written in order, to accomplish a certain predefined task. Research on the ethics of algorithms has grown substantially over the past decade. Alongside the exponential development and application of machine learning algorithms, new ethical problems and solutions relating to their ubiquitous use in society have been proposed.
JAVA TECHNOLOGIES I (THEORY & PRACTICAL)	14PCSC303 & 14PCSC303P		✓		✓	Code written once functions for a long time. The design of the language makes it easy for non-fanatics to use it in programming. The code produced executes efficiently. Java can create safe, reliable and useful quality software. It provides adequate testing, debugging and review of the application. Pre-existing code can be used after gaining proper license to use them.
PYTHON PROGRAMMING	14PCSC305		✓			Python is used in Data science to solve business problems. These include detecting fraud, optimizing transportation routes, and forecasting demand. However, a growing number of organizations and individuals are demanding more. Data and data science should be applied to solve the existential problems we are facing. More and more platforms promote data for societal benefit

SOFTWARE ENGINEERING	14PCSC306		✓	✓	✓	Principles and practices of software engineering pave way to build quality software which is the need of every industry. Understanding theories, categories, decision-making, professional codes and common morality aids in the development custom driven quality software
JAVA TECHNOLOGIES II	14PCSC309		✓		✓	Java Servlet and JSP can create safe, reliable and useful quality software. It provides adequate testing, debugging and review of the application. Pre-existing code can be used after gaining proper license to use them.
OPERATING SYSTEMS	14PCSC310		✓			Operating environment or integrated applications environment is the environment in which users run application software. The environment consists of a user interface provided by an applications manager and usually an application programming interface (API) to the applications manager.
J2EE- PRACTICAL	11PCSC311		✓		✓	Using J2EE, dispersed users with centralized applications can be connected, applications can be quickly and efficiently built ,and heterogeneous clients and servers can be connected.
DATA MINING AND DATA WAREHOUSING	14PCSC307				✓	Data Mining depends on data, So data collection should be done professionally and ethically.The process of generating data through a mining operation becomes important ethically, where the results are used for decision making process.
SHELL PROGRAMMING (THEORY & PRACTICAL)	15PCSC303 &15PCSC303P			✓	✓	Linux provides the best support for ethical hacking through multiple applications and Linux flavours that are exclusively built for this purpose. When it comes to cyber security it is closely associated with Linux environment and thus shell programming becomes important factor in securing network, data storage, etc. This addresses the security threats that exist all over the world.
CLOUD TECHNOLOGIES	17PCSC301		✓			Through cloud computing small organizations are able to get any computing resources through internet. It also enables cost reduction in hardware maintenance since they can use servers for file storage. Studies show that higher ethical and entrepreneurial orientation lead to a person adopting cloud computing. Companies move towards cloud technologies since they provide much higher scalability at a lower rate compared to the physical systems.
PROGRAMMING WITH ASP.NET (THEORY & PRACTICAL)	15PCSC302 &15PCSC302P		✓			Web Technology has sustainability as websites and applications developed using this technology will last long even 10-20 years after the creation.
R PROGRAMMING FOR BIG DATA	15PCSC301				✓	Implementation of Big Data Concepts using R Programming for analysing the data which is useful for decision making in various disciplines.Data should follow the procedures and to be collected professionally and ethically.
SOFTWARE PROJECT MANAGEMENT	14PCSC315		✓	✓	✓	Software project management is the sub-discipline of project management in which software projects are planned, implemented, monitored, and controlled.The main ethical issues in software project management are Honesty, Transparency, Confidentiality, Respect,and Loyalty. An effective Software Project management ensures that Companies focus on the quality of work and project managers focus on an ethical code of conduct in order to make their company environmentally friendly and also to satisfy their customers.

OPTIMIZATION TECHNIQUES	14PMAT301		✓			The principal goal of optimization is to improve the overall sustainability including the environmental sustainability, social sustainability, economic sustainability, and energy resources sustainability. This can be achieved by applying various optimization techniques and their corresponding algorithms.
HYPERTEXT PREPROCESSOR- PRACTICAL	15PCSC304		✓			PHP coding language is ranked among the best and most popular programming tools for web development. Two of the most famous examples of software written on PHP are Facebook and WordPress. PHP is used by 78.9% of all websites with a known server-side programming language.
MYSQL-PRACTICAL	15PCSC305		✓			MySQL is globally renowned for being the most secure and reliable database management system used in popular web applications including WordPress, Drupal, Joomla, Facebook and Twitter. The data security and support for transactional processing that accompany the recent version of MySQL can greatly benefit any business, especially if it is an eCommerce business that involves frequent money transfers.
DISTRIBUTED OPERATING SYSTEMS	18PCSC302		✓			Operating environment or integrated applications environment is the environment in which users run application software. The environment consists of a user interface provided by an applications manager and usually an application programming interface (API) to the applications manager.
JAVA TECHNOLOGIES	18PCSC303 &18PCSC303P		✓		✓	Java can create safe, reliable and useful quality software. It provides adequate testing, debugging and review of the application. Pre-existing code can be used after gaining proper license to use them.
OBJECT ORIENTED SYSTEMS DEVELOPMENT	18PCSC304 &18PCSC304P		✓			Object Oriented Development (OOD) has been touted as the next great advance in software engineering. It promises to reduce development time, reduce the time and resources required to maintain existing applications, increase code reuse, and provide a competitive advantage to organizations that use it.
ADVANCED JAVA TECHNOLOGIES	18PCSC305		✓		✓	Java Servlet and JSP can create safe, reliable and useful quality software. It provides adequate testing, debugging and review of the application. Pre-existing code can be used after gaining proper license to use them.
DATA MINING USING R	18PCSC307 &18PCSC307P				✓	Adoption of Good safety standards to collect data and maintaining the confidentiality.
RUBY ON RAILS PROGRAMMING	18PCSC308		✓			Energy efficient websites designed using Ruby on Rails Framework increases sustainability by optimizing Images to reduce file size.
C# AND .NET	18PCSC309 &18PCSC309P		✓			Energy efficient websites designed using C# and .NET increases sustainability by optimizing Images to reduce file size.
CYBER SECURITY AND COMPUTER FORENSICS	18PCSC310				✓	Computer forensics is the use of scientifically derived and proven methods towards the preservation, collection, validation. Academics, government officials, and practitioners suggest the field of digital forensics is in need of a professional code of ethics.
SOFTWARE TESTING	18PCSC311 &18PCSC311P				✓	The soft-ware engineering community has recognized the importance of building a culture of software engineering ethics to guide the behaviour of and decisions made by professional software testers to ensure, as much as possible, that their efforts will be used to make software engineering a beneficial and respected profession. Each tester writes a code with integrity that fits it's specific circumstances and concerns.

Chennai-600 034

ADVANCED DATABASE MANAGEMENT SYSTEMS	19PCSC301 & 19PCSC301P				✓	To respect the privacy of users and not to try to violate others database information. Never share or pass on a customer's personal information to others.
CRYPTOGRAPHY AND NETWORK SECURITY	19PCSC302			✓	✓	Computer security touches every part of our daily lives from our computers and connected devices to the wireless signals around us. Breaches have real and immediate financial, privacy, and safety consequences. Modern cryptography provides a strong set of techniques to make sure that the malevolent intentions of the adversary are thwarted while ensuring the legitimate users get access to information.
SOFTWARE PROJECT MANAGEMENT AND QUALITY ASSURANCE	19PCSC303		✓	✓	✓	The soft-ware engineering community has therefore recognized the importance of building a culture of software engineering ethics to guide the behaviour of and decisions made by professional software engineers to ensure, as much as possible, that their efforts will be used to make software en-gineering a beneficial and respected profession
<b>M.Sc. FOOD TECHNOLOGY AND MANAGEMENT</b>						
MANAGEMENT PRACTICES FOR FOOD INDUSTRIES	14PMAN306		✓		✓	Application of management practices aims at optimal utilization of resources leading to cost reduction.
FOOD CHEMISTRY AND NUTRITION (THEORY & PRACTICAL)	22PFSC301 & 22PFSC301P		✓		✓	Achieving a healthy and sustainable food future, food security and improved nutrition is possible on understanding about consituents of food, their interactions during processing, nutrients and its sources & functions.
FOOD AND INDUSTRIAL MICROBIOLOGY (THEORY & PRACTICAL)	16PFSC302 & 16PFSC302P		✓		✓	Food and Industrial microbiology is all about use of microorganisms grown on a large scale, to obtain valuable commercial food products ensuring environment friendly sustainable food future.
FOOD QUALITY SYSTEMS	18PFSC301		✓		✓	Implementation of global food safety and management systems and tools assures sustainable food quality and quantity and ethics at all time.
PRINCIPLES OF FOOD PROCESSING - I	22PFSC302		✓			Susutainability is the key driver in food industry. POFP provides the basic concepts about food processing technologies that are efficient and environmentally friendly and ensures sustainability by reducing waste.
FOOD BIOTECHNOLOGY	19PFSC302		✓			Food Biotechnology can be used to fulfil the growing demand for food by recuperating yields, nutritional quality of crops, and plummeting the harmful impact on the environment. It's synergetic to sustainable agriculture and food processing techniques. its widely used in research laboratories, processing industries, hotels, hospitals, factories of different products, rice mills, manufacturing industries, distilleries etc
MARKETING AND ADVERTISING	14PMAN314			✓	✓	The course helps in the application of ethical marketing and advertising practices by food companies by relating moral principles to all their business practices by the means of dealing and caring about all its stakeholders and promoting social responsibility.
NUTRITIONAL BIOCHEMISTRY (THEORY & PRACTICAL)	22PFSC303; 22PFSC303P		✓		✓	Nutritional Biochemistry is the division of science that explores the chemical processes within the living organisms and plays an important role in nutrition and health. An understanding on NBC help achieve the sustainable developmentalgoals- promote healthy and sustainable diets and improved nutrition.

TECHNIQUES IN FOOD ANALYSIS (THEORY & PRACTICAL)	18PFSC303 &18PFSC303P		✓		✓	Food analysis is the discipline dealing with the development, application and study of analytical procedures for characterizing the properties of foods and their constituents. Knowledge and skill in food analysis help achieve specified standards concerning the composition, quality, inspection, and labeling of specific food products. It has a significant health, societal and economic impact.
FRUIT AND VEGETABLE TECHNOLOGY (THEORY & PRACTICAL)	18PFSC304 &18PFSC304P		✓			Processing of fruits and vegetables into value added products ensures food conservation and sustainability
PRINCIPLES OF FOOD PROCESSING - II	19PFSC303		✓			The course explains most recent innovations on emerging food processing technologies and strategies that have a significant impact in the development of a sustainable food future.
FOOD ADDITIVES AND INGREDIENTS	19PFSC304		✓	✓	✓	The food processing sector has global applications of food additives in the context of packaged foods ensuring safe and sustainable food and ethics in the use of food additives.
RESEARCH METHODOLOGY	16PFSC308		✓	✓	✓	Research and development are applicable in all fields without which sustainability can't be achieved. They go hand in hand. Scientific research depends on collaboration between researchers and groups and research ethics helps support important social and moral values
MINI PROJECT	10PMIP301		✓	✓	✓	Research and development is the key to sustainability. The course emphasizes the development of innovative products and practices for improved nutrition and health
CEREALS, PULSES AND OILSEEDS TECHNOLOGY	14PFSC311		✓			Processing technologies in cereals pulses and oilseeds are utilized for product development and value-added products
MEAT, POULTRY AND FISH TECHNOLOGY	14PFSC313		✓		✓	Processing and preservation of meat ensures sustained meat products. Quality control and ethical processing of meat is mandate by law
MILK AND MILK PRODUCTS TECHNOLOGY	14PFSC314		✓	✓	✓	Processing of Milk and Milk Products has implications in both rural and global agriculture economy. An understanding on dairy technology enhances all three sustainability pillars- economy, environmental and social
BAKERY AND CONFECTIONARY TECHNOLOGY (THEORY & PRACTICAL)	14PFSC316 &14PFSC316P				✓	Designing a new product should always ensure ethical business practices.
FOOD PRODUCT DEVELOPMENT (THEORY & PRACTICAL)	14PFSC317 &14PFSC317P		✓			Embedding sustainability considerations in the new food product development process has significantly more potential to improve the overall sustainability of the food business.
BEVERAGE TECHNOLOGY	14PFSC310		✓			Product development utilizing underutilized sources with functional properties promotes economy and health through better nutrition
PLANTATION CROPS AND SPICES TECHNOLOGY	14PFSC315		✓			An understanding on appropriate technologies related to plantation crops and spices promotes sustainable processing methods that improves economy.
<b>M.A. COMMUNICATION</b>						
INTRODUCTION TO COMMUNICATION	14PMED305			✓	✓	The course deals with different levels of communication from intra to mass communication. Hence it is ideal to interpret human values and to understand and incorporate professional ethics.
ICT FOR DEVELOPMENT	22PMED305		✓	✓	✓	The course focuses on the technological advancement used for the development of mass communication.

Chennai-600 034

JOURNALISTIC SKILLS	15PMED301	✓	✓	✓	✓	The course focusses on issues pertaining to gender and human values. Every journalist should maintain professional ethics and adapt to the changing environment for sustainability.
PUBLIC RELATIONS AND CORPORATE COMMUNICATION	15PMED302	✓	✓	✓	✓	This course requires understanding of human value and gender in identifying the target audience for whom the communication is intended to. Environment and sustainability have always been a focus area in PR. Professional ethics should be followed
COMMUNICATION PSYCHOLOGY	14PMED304	✓		✓		Understanding gender-based perspective is very vital for this field; human values and emotions are very crucial to this field
BASIC PHOTOGRAPHY	10PMED325	✓	✓	✓	✓	This practical course brings to life the human values from anything that they see around. Visual depiction of human emotions plays a fine role in creating a sustainable pattern
MEDIA MANAGEMENT AND LAW	16PMED305				✓	This course involves in knowing the importance of law in media and how to use the same in a corporate environment. Hence it should be used with thorough professional approach.
ADVERTISING	16PMED306	✓	✓	✓	✓	The course deals with gender right from the start of segmentation process. Emotional tales and environment issues have always been the central elements in Advertising conceptualization and visualization.
AUDIO VISUAL PRODUCTION I	15PMED304	✓	✓		✓	Narration ideas should necessarily evolve from human values and emotions. And also from the perspective of gender. Maintaining ethical standards is very essential in all stages of production.
SOCIAL MEDIA COMMUNICATION	15PMED306	✓	✓	✓	✓	Generating gender based content using various social media platforms. As it is an unmonitored platform, maintaining the ethical standards is very vital.
ADVERTISING STRATEGY AND CAMPAIGN	14PMED312	✓	✓	✓	✓	This practical course deals with gender right from the start of segmentation process. Planning and executing a campaign based on external factors like environment, values need to be incorporated in the planning process. Visual appeals are also maintained within the realms of ethical standards.
PRINT JOURNAL	15PMED309	✓	✓	✓	✓	Story ideas for articles are evolved from gender and human value perspective. It showcases the human emotions and gender in perspective of covering news stories; Environment and sustainability is one of the core areas for the journal theme.
AUDIO VISUAL PRODUCTION II	15PMED308	✓	✓	✓	✓	Narration ideas should necessarily evolve from human values and emotions and also from the perspective of gender. Maintaining ethical standards is very essential in all stages of production.
FILM STUDIES	14PMED324	✓	✓	✓	✓	Gender perspective is very vital in content creation and audience perspective. Environment and sustainability becomes the core area in Documentary category of Film making. Human values and emotions is the outcome of any film.
INFORMATION & COMMUNICATION TECHNOLOGIES	15PMED307				✓	Ethical issues in terms of IT Act, NEP are explained in depth. The policy updation and its understanding play a vital role in shaping the community
PR CAMPAIGN/ MINI PROJECT	15PMED311	✓	✓	✓	✓	This requires understanding of human value and gender in identifying the target audience for whom the communication is intended to. Environment and sustainability have always been a key focus area in planning and executing for a PR Campaign. Professional ethics should be followed at every level of execution.
<b>COURSES COMMON TO M.A. COMMUNICATION, M.A. MEDIA MANAGEMENT</b>						
APPRECIATION AND ANALYSIS OF MEDIA	16PMED309	✓	✓	✓	✓	Gender perspective, sustainability, environment and human values is very vital in criticing and appreciating any piece of media art.
COMMUNICATION RESEARCH METHODS	16PMED311	✓	✓	✓	✓	Examine global Milestones in communication research taking into consideration the national, regional and local challenges in conducting media research.

SPECIALIZATION / PROJECT	10PINT301	✓	✓	✓	✓	A three-month intensive training is undertaken in a field relevant to Media Management, in any organization situated either globally, nationally, regionally or locally, thereby getting prepared for employment in any geographic region upon completion of the program.
DISSERTATION	11PSTP301	✓		✓		Students undertake research in a media related field which have national significance using local sample.
<b>M.A. MEDIA MANAGEMENT</b>						
CELEBRITY MANAGEMENT	11PMED306			✓	✓	While building a brand, the ethical treatment of people/communities is very crucial.
BRAND MANAGEMENT	20PMED302			✓	✓	The 3 Cs of positioning namely Consumer, Competition and Company deal with core human values and professionalism.
CRISIS MANAGEMENT	20PMED301	✓	✓	✓	✓	During any crisis human life is given the prime importance.
BASICS OF MARKETING MANAGEMENT	16PMAN301		✓	✓	✓	While managing the social media platform for a client, it is crucial for students to be professional. Problems & Morals of Social Media, Ethical Issues form the crux of Unit 4.
